# 1. Introduction to NZASA

---

## Why join NZASA?

The NZ Acupuncture Standards Authority (NZASA) Inc is a standards-based registration authority committed to helping you maintain standards of professional, ethical and clinical competency in acupuncture in New Zealand.

NZASA was incorporated in 2000. It is a member-led organisation with an elected Executive Board and an employed Registrar.

NZASA is one of two voluntary self-regulatory bodies which register acupuncturists in New Zealand. There is currently no national regulation of Chinese Medicine (acupuncture and Chinese herbal medicine) in New Zealand.

NZASA was recognised in 2005 under the Accident Compensation Corporation (ACC) Act, and through that NZASA registered members are able to become ACC Treatment Providers.

NZASA is the only acupuncture registration body in New Zealand that understands the importance of separating education and regulatory roles in keeping with the professional requirements of the Health Practitioners Competency Assurance (HPCA) Act.

NZASA's membership includes both local practitioners and practitioners from the UK, USA, Australia, China, Korea and further afield who have chosen to reside and practice in New Zealand. The membership is made up of practitioners who hold recognised qualifications in Acupuncture and/or Chinese Medicine, including diplomas, undergraduate, postgraduate and masters degrees.

NZASA recognises that practitioner needs vary from one person to another. It therefore offers discounts to new graduates who are starting out in practice and a variety of membership types so you can choose what suits you best:

- ***Student member***
- ***Non-Registered member***
- ***Registered member***

*For NZASA membership fees and application processes – see section 4.*

### ***Benefits of membership with NZASA:***

- Membership of a recognised Registration Authority
- Educational opportunities through NZASA's affiliated organisations and the wider professional acupuncture community
- The potential to apply for Registered membership (if registration requirements are met)

- The option to have access to a group Public Liability and Indemnity insurance scheme at special rates negotiated by NZASA– see *Section 7*
- Up-to-date news and information regarding regulations affecting the profession
- The opportunity to build your professional network

### **Joining NZASA as a Registered member**

NZASA maintains a list of Registered acupuncturists who are able to apply to become ACC Treatment Providers in terms of Section 6 (1) of the ACC Act.

NZASA has established ethical, technical and practice standards, which are implemented through the registration and certification programme, and enforced through a code of professional conduct and disciplinary procedures that apply to all of its Registered acupuncturists.

NZASA operates a competency assessment regime that includes a workplace evaluation by qualified assessors. NZASA also provides guidance to practitioners on acupuncture and Chinese Medicine practice issues, and promotes the education and training of practitioners.

#### **ACC Treatment Providers:**

NZASA has been recognised in the ACC Act since 2005. Acupuncturists registered with NZASA can apply to become ACC Treatment Providers.

*ACC provides comprehensive, no-fault personal injury cover for all New Zealand residents and visitors to New Zealand. As an ACC treatment provider, you are able to treat people and claim your fees (or part-fees) directly from ACC. Please visit the ACC website for further information about ACC - [www.acc.co.nz](http://www.acc.co.nz)*

In order to become an ACC Treatment Provider, a practitioner must first meet NZASA's Registration criteria and secondly be issued with an Annual Practicing Certificate.

#### **Legislation:**

In September 2010, the Chinese Medicine profession in NZ submitted two applications for the recognition of Chinese Medicine (acupuncture and Chinese herbal medicine) under the Health Practitioner's Competency Assurance (HPCA) Act.

As at August 2014, no decision has been made by the government.

Until Chinese Medicine is recognised as a health profession, regulation will continue to be voluntary and the profession will continue to be self-regulated.

Therefore, the current registration process surrounding registration with NZASA remains in place in accordance with the ACC legislation.
